

Rafael Corporan | Full-Stack Developer

+(347) 829-4952 · rafaelcorporan@gmail.com

441 Farnham Ave, Apt. 1B Lodi, NJ 07644

OBJECTIVE:

Full-Stack Developer & AI Systems Architect with 10+ years of experience designing and deploying Network infrastructure and cloud-native backends to LLM-integrated applications. Combines deep expertise in network architecture, scalable DevOps, and ethical AI to build secure, future-proof systems. Proven leader in cross-functional environments, with a track record of, remote collaboration, and delivering full-stack solutions that balance innovation with operational rigor.

SKILLS:

- | | | |
|------------------|-------------------------------------|---|
| ● CSS 3 | ● CSS-in-JS, React Native, Flutter | ● AWS, Azure, Vercel, Netlify, Cloudflare |
| ● HTML 5 | ● Node.js, Python (FastAPI, Django) | ● Lambda, Cloudflare Workers, Vercel (v0) |
| ● React | ● Go, Rust, WebSockets, WebRTC, | ● Docker, Kubernetes, GitHub Actions |
| ● Next.js | ● WebAssembly | ● Databases: SQL, NoSQL |
| ● TypeScript | ● Internet marketing | ● AI Prompt Engineering |
| ● Web Components | ● PhpMyAdmin | ● Automation (n8n) |
-

PROFESSIONAL EXPERIENCE

Udara NYC: Mar 2019 – Sep 2024

VoIP Network Project Lead - Remote / Multi-site

• Architected and deployed a secure, multi-location VoIP network with site-specific gateways and centralized DigitalOcean VPS core. • Implemented end-to-end encrypted VPN tunneling and optimized VOS Softswitch for high-availability call routing. • Integrated simulation training platform (Sim Center) and managed Gateway Registration System for dynamic call flow. • Dual role as Project Manager & IT Recruiter: Led 5+ engineers, coordinated resource allocation, and delivered all milestones on schedule.

Tech Alliance, NYC. | Apr 2014 – Sep 2017

IT Specialist

• Provided end-to-end desktop/server support; rapidly promoted to Web Administrator. • Deployed and managed Oracle DB on SUSE Linux 11; built LAMP stack servers and WordPress sites. • Automated MySQL backups via Bash/cron; maintained mixed (Windows XP–Server 2012) and Linux environments.

OnuxTech, Freeport NY: Feb 2008 - Nov 2013

IT Consultant,

Designed and constructed data centers from ground up; implemented structured cabling and redundancy. Increased application uptime >99.5% by enhancing failover and reducing mean-time-to-recovery.

DP World Caucedo: Oct/2003 – May/2007

System Engineer & Network Admin

Major Accomplishments:

- + Promoted from Crane Operator to a System Engineer within 9 months at the company
- + Promoted from System Engineer to become the Network Administrator within 2 years at the company

Hardware & Systems Deployment

- Deployed and maintained HP/Dell workstations and servers
- Performed Windows/Linux OS imaging and cloning using Acronis and Norton Ghost

Enterprise Networking & Security

- Designed and installed structured cabling (UTP, multimode/single-mode fiber)
- Configured Cisco Catalyst switches (2955, 4506): VLANs, password recovery, IOS upgrades/backups (TFTP)
- Set up wireless structured: Cisco Aironet APs (350/1300 series), Linksys WRT54G/WAP54G, SSID, WEP
- Configured Cisco 2600 routers with OSPF, EIGRP, NAT and secure remote access (VTY, password recovery)

Microsoft Infrastructure & High Availability

- Administered core services: Active Directory (Domain Controllers, OUs, GPOs), DNS, DHCP, DFS
- Implemented Routing and Remote Access (RRAS) for site-to-site and client VPN (NAT/IPSec) ensured continuity via clustered servers and fault-tolerant configurations

AI - Trainings

OpenAI Academy, Google Cloud AI and Anthropic Academy courses in prompt engineering and workflow automation use cases and implementation strategies Prompt structure research and optimization techniques LLM fine-tuning and deployment methodologies.

- **OpenAI Academy** (Prompt Engineering, Workflow Automation) | Google Cloud AI Implementation

ANTHROPIC (Claude AI)

- AI Fluency: Framework & Foundations
- Claude Code in Action
- Claude with Amazon Bedrock
- Claude with Google Cloud's Vertex AI
- Claude with the Anthropic API
- Introduction to Model Context Protocol
- Teaching AI Fluency
- Model Context Protocol: Advanced Topics

February 2008 - November 2013

EDUCATION & CERTIFICATIONS

Borough of Manhattan Community College

CISCO NETWORK ASSOCIATE (CCNA)

Install, conf, & troubleshoot Cisco networks devices

Cisco Academy / ITLA

HP IT Essentials I PC Hardware and Software
HP IT Essentials II Network Operating Systems

Cisco Academy / ITLA

Network Security I
Network Security II

Panduit Network

Formerly Voice and Data Cabling.

Test-Out

Managing & Maintaining Windows Server 2003
Planning a Server 2003 Network Infrastructure
Implementing an Active Directory Infrastructure
Installing, Configuring & Admin Windows Vista Ultimate
Installing, Configuring & Admin Windows XP Professional

UNICDA) Dominican American University

Diploma in Management of Operations

Diploma in Industrial Mechanic - INFOTEP

Basic of industrial mechanics, Lathe & Milling machines operator,
Tols sharpener and Machines maintenance.

GNU/Linux Structure

Linux Red Hat 7

Certification:

CompTIA A+

Cisco Academy / ITLA

CCNA 1: Networking Basics Cisco system
CCNA 2: Routers and Routing Basics Cisco system
CCNA 3: Switching Basics & Intermediate Routing
CCNA 4: WAN Technologies
